Shai Atar

Senior Product Manager · AI Products & Fintech

shaiatar@gmail.com · 050-2056132 · Tel Mond

SUMMARY

Senior PM & AI Builder with 8 years incl. AI-native fintech Nominal. Built LLM close products 0-to-1 with prototyping, evals, and analytics ownership.

EXPERIENCE

Entrepreneur & AI Product Builder · Self-Employed — Sep 2026 — Present

- Co-founded and built DirectRef 0-to-1, an AI-powered referral platform connecting Tech candidates directly to internal company referrers.
- Designed core product architecture, LLM workflows, and full-stack interactive prototypes using AI-native tooling.

Senior Product Manager · Nominal — Sep 2025 — Aug 2026

- Own analytics vertical at AI-native fintech, setting strategy and roadmap for LLM products automating the financial close.
- Took Account Reconciliation from 0 to 1, from research and spec to launch with design partners, deliberately scoping a narrow MVP to reach the first customer onboarding.
- Built LLM-as-judge precision evals for Anomaly Detection agents, cutting false positives from ~70% to ~40% and using the data to make a clear stop/go call.
- Led Flux Analysis, a conversational variance agent: backtested against customers' own reports (~90% matched their reasoning) and reframed a 700K-combination request into a shippable feature.

Product Manager - Billing · Melio — Feb 2023 — Aug 2025

- Built Melio's Billing squad from scratch and launched subscription program incl. plans, billing cycles, and discounts.
- Owned failed-payment recovery flows for subscriptions, covering retry and dunning experience.
- Built self-serve pricing UI adopted by 100% of internal users, eliminating dev work for pricing changes.

Product Manager – Growth (Promoted from CRO) · Next Insurance — Dec 2018 — Jul 2022

- Owned top/mid-funnel conversion strategy and UX experimentation across dozens of experiments, growing organic traffic 30% QoQ through lead nurturing with engineering teams.
- Led site infrastructure migration from WordPress to Next.js, cutting engineering costs by 10% and improving marketing agility.

EDUCATION

Ruppin Academic Center · BS.c Industrial Engineering Information Systems — Aug 2013

Netcraft Academy · UX course — Mar 2017
